Our Therasage massage bed is designed to target your body's vital pressure points along the spine with a precise, relaxing massage to provide you with the combined therapeutic benefits of massage and far-infrared heat to:

- Provide relief from back and joint pain
- Improve blood circulation and metabolism
- Increase flexibility
- Decrease harmful body toxins
- Reduce stress and fatigue
- Promote deep sleep
- Invigorate tired muscles

**Designed to invigorate your body, Therasage uses far-infrared heat to deeply penetrate your body and stimulate your blood cells.**

**Results are comparable to an hour long massage in just minutes. Therasage customers remain completely clothed and enjoy the experience in the privacy of their own room.**

*My body is so tired after working all day. An ordinary massage is just too expensive, so I started looking for an alternative. That's when I found Planet Beach and Therasage . It blends an effective massage with heat that soothes all my muscles. Now, I do it 3 times a week and I've never felt better and more energized!*
