

Umo facial

Vitalize, clear, repair and firm your skin!

Our UMO Facial service forms a cool mist used to hydrate and lock in moisture for the soft and supple glow of baby-soft skin. The UMO Spa mist prompts cellular renewal to:

- Diminish fine lines, wrinkles and dark circles
- Improve skin elasticity
- Create even skin tone and texture
- Purge and close clogged pores
- Enhance the skin's natural moisturizing capabilities
- Penetrate skin's deepest layers
- Lighten age and sun spots

Designed for deep moisturizing, UMO Facial therapy uses Gamma PGA, which has a hydrating effect that is ten times stronger than the ever so popular, hyaluronic acid.

Results will enhance your skin's natural moisturizing capability, keeping your skin smooth and supple, at a reasonable price. After one treatment you'll notice a softer, more youthful complexion.

I love using the UMO Facial . My skin was dry and I started to get wrinkles at a young age. I didn't have the money for the weekly facials that seemed to do the job, or at least I thought, until I learned about UMO at Planet Beach. Now my skin stays hydrated and I have more vibrant, younger looking skin.
